

## AAC Mounting Solutions

**ClampOnMount:** REH $\Delta$ dapt  
Model Number: 12.1760 Engineering

The ClampOnMount offers a longer accessibility range because of its extra tubing and joint. The ClampOnMount is secured to a flat surface via the included Manfrotto SuperClamp, and is extremely sturdy and versatile. The ClampOnMount is completely 3-Dimensional adjustable making it possible to position the UDS anywhere it is needed. At every joint is a „ratchet-style“ handle used to easily adjust its position without the use of tools. Supports up to 12 lbs.

Mounting refined. Mounting redefined.

Due to modular system many more variations are possible. Contact us for more information.
