

## AAC Mounting Solutions

**REHAdapt**  
Engineering

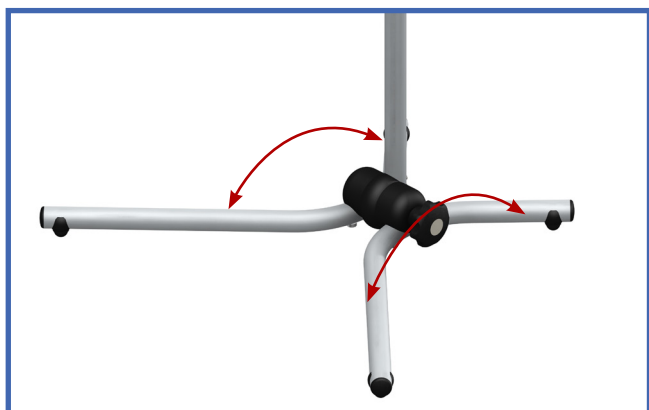

### TS-XL:

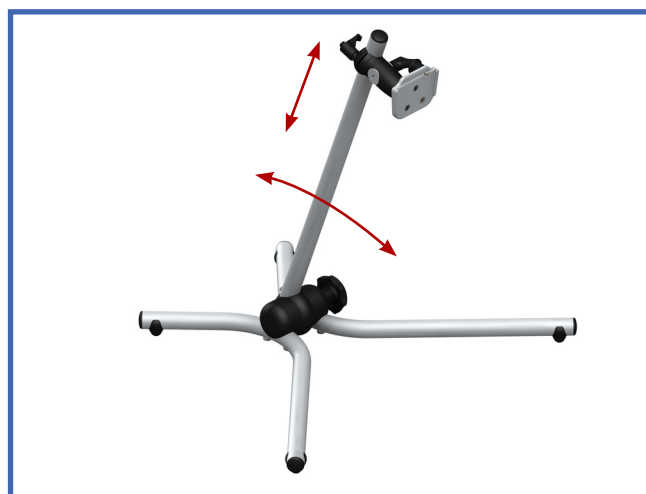

Model Number: 12.1602

Table stand for Secure & Easy positioning of EyeControlled devices on tables and desks. With integrated anti-tip function and automatic alignment of feet for solid seating on even or uneven surfaces. Column folds down and slides through for minimized packing size. Includes UDS-DC and supports up to 18 lbs.

Mounting refined. Mounting redefined.

The legs on the left move independently from the legs on the right, making the TS-XL stable on even or uneven surfaces.

The TS-XL can tilt forwards and the UDS raised or lowered to accommodate individual communication device size requirements.
