AGOSCI National Tour

We are booked to attend the AGOSCI national tour with Dr. Tracy M. Kovach! So looking forward to learning about the Ongoing Assessment for communicative competence. With many dates all over Australia starting in mid August - please book to reserve your place at the [AGOSCI web site.](#)

Please register online.

Zingui with Tracker-Pro

Zingui and Tracker-Pro work well together, providing head tracking access to a compact device. Slight head movement is required to move the mouse and dwell to select.

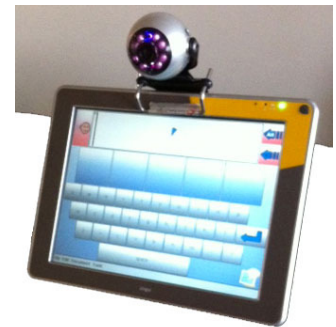

New Universal Tablet mount plate

Our interest in this tablet adapter is primarily the VESA mounting points. This makes it suitable for using a generic Windows tablet with the Intelligaze CAM30NT. The central bracket with the angled "holder" extends to accommodate tablets in portrait or landscape orientation. A locking piece secures the required height. This is a mount plate only.

Connects to any VESA mounting system such as an office mounting arm, or the versatile and well engineered Daessy or Rehadapt systems. More images to follow.
