Last call

- ▶ Melbourne Study Day
- ▶ Tues July 1st

Registrations closing Thursday 26th June

Next Tuesday we are holding our first (of two) Melbourne Study days. We have just returned from a successful Study Day in Launceston, so we're on a roll! There are some places remaining so please register as soon as possible. We have had a last minute rush in registrations for our recent events, so please act quickly!

The Study Day aims to bring together use of

- tablet Speech Generating Devices using The Grid 2,
- social media and wider communication options,
- eye gaze and other access methods
- from early learning level through to computer savvy text-to-speech communicators.

We hope to see you next Tuesday!
 Registration required [online. \(click here for online link\)](#)

 Sydney
 Registration opening soon
 Please save the date

Newsworthy!

Thanks to Christopher Bryg from the Independent Living Centre Tasmania we have all appeared in a news article and online video in the Examiner.

Alex Druce was the enthusiastic journalist who has crafted a story about the Tellus 4 Intelligaze, The Grid 2 and its application.

The AVAZ App (Australian version) is now available for **Android** tablets. A new video is available to assist with set-up. A number of **videos** are available to demonstrate the features of AVAZ. [Click to go to videos](#) AVAZ lite is free to download to iPad to provide a limited term trial. This is the U.S. version, not the Australian version but is a helpful starting point.

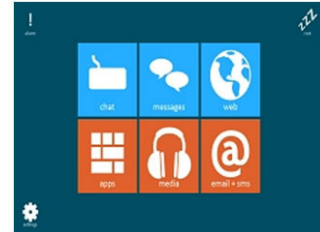

Zytec

Zytec now offers the MyGaze eye gaze camera in addition to the Intelligaze CAM30NT and Tobii PCEye. Each camera has it's own key features. The MyGaze is intended as an entry level camera and is supplied with suitable software. To appear on the website shortly.

Please check it out at: [The Examiner "Communication boost at the blink of an eye"](#)
